| **GPA and rigor of curriculum weigh roughly three to two to standardized tests in predicting academic success at UGA. Effectively, this means that a student with a 4.0 GPA in a superior curriculum of Advanced Placement (AP) or International Baccalaureate (IB) courses might be admitted with an SAT score at or below 1000. Yet, another student with a 3.0 GPA and an SAT score of 1400 might not be admitted, if the student opts for no more than a standard college prep curriculum with few if any Honors, AP or IB courses. | | | | | | | | | | | | | | |
| AP Recommendation | **To be most competitive, you should challenge yourself by pursuing the most rigorous courses available in your high school that you, your parents, and your guidance counselor deem appropriate to your level of ability in each respective academic area. The number of courses taken beyond the minimum requirement of 17—not to mention those designated as advanced, Honors, gifted, AP/IB or dual enrollment—will be considered in the admission process. In fact, in recent years, 98% of first-year students admitted to UGA pursued an honors or advanced level curricular track. Please note: A challenging schedule will not counterbalance a non-competitive GPA, as your grades ultimately remain the single most important factor." | | | | | | | | | | | | | |
