**TABLE 2 - STATE COLLEGES NOT REQUIRING SAT/ACT SCORES**

Students applying to a state college not requiring SAT/ACT are screened for Learning Support placement as part of the admission process<sup>3</sup>. Students may exempt LS placement screening by providing SAT or ACT scores meeting the college’s minimum for exemption. Students who have taken the SAT or ACT are encouraged to submit scores that can be used to exempt them from placement testing.

## NOTES

<sup>1</sup> In addition to meeting test score, high school GPA (HSGPA) and freshman index (FI) requirements, applicants must also satisfy the Required High School Curriculum (RHSC) as outlined on the USG's [Staying on Course](#) document..

<sup>2</sup> SAT taken prior to March 2016 is the old SAT. SAT taken March 2016 or later is the new SAT.

<sup>3</sup> Applicants not exempting Learning Support (LS) placement screening are evaluated for LS placement as part of the admission review process. LS placement is determined by calculating an English Placement Index (EPI) and Mathematics Placement Index (MPI) using an applicant's High School Grade Point Average (HSGPA), SAT/ACT scores and/or COMPASS/ACCUPLACER placement test scores. Students who score below the index floor scores in both English and mathematics are not eligible for regular admission to any USG institution. Students who score below the floor score in one area may be admitted if the score in the other area is at least as high as the offsetting index score. Admitted students with placement indices less than the minimum collegiate placement index will be placed into co-requisite or Foundations-level Learning Support.

<sup>4</sup> The High School GPA (HSGPA) is calculated using only the 17 units of the Required High School Curriculum (RHSC) as outlined on the USG's [Staying on Course](#) document. The HSGPA is calculated on an alpha four-point scale. Numerical grades provided on high school transcripts are converted to letter grades based on the conversion table provided by the high school. The letter grades are converted to quality points as follows:

A = 4                      B = 3                      C = 2                      D = 1                      F = 0

<sup>5</sup> The SAT FI formula is based on the old SAT. Students taking the new SAT have their scores converted to the comparable old SAT scores using the College Board concordance tables. New SAT Reading test scores are converted to comparable old SAT Critical Reading section scores and new SAT Math scores are converted to comparable old SAT Math section scores.

The concordance tables are provided on the College Board website at <https://collegereadiness.collegeboard.org/educators/higher-ed/scoring-changes/concordance>. Students may wish to use the SAT Score Converter available on the College Board website at <https://collegereadiness.collegeboard.org/sat/scores/understanding-scores/sat-score-converter> to convert their scores.

The SAT FI formula is:

$$500 \times (\text{HSGPA}) + \text{old SAT Critical Reading section score} + \text{old SAT Math section score}$$

The ACT FI formula is:

$$500 \times (\text{HSGPA}) + (\text{ACT Composite} \times 42) + 88$$

<sup>6</sup> SAT/ACT scores are not required for freshmen applying to the Associate Pathway at South Georgia State College. Freshmen applying to a Bachelor's degree program are required to meet minimum SAT/ACT score requirements.

<sup>7</sup> Students applying to an institution with a minimum Total SAT score and/or Composite ACT score requirement, must meet the Total/Composite score minimum in addition to the test section and Freshman Index minimums. For old SAT test-takers, the Total score is the sum of the Critical Reading section score (on the 200-800 scale) and the Math section score (on the 200-800 scale). For new SAT test-takers, the Total score is the Total score provided on the student's SAT score report and is comprised of the Evidence-Based Reading and Writing section score and the Math section score. The new SAT Total score is on a 400-1600 scale.

<sup>8</sup> The USG selective admission universities (Georgia College & State University, the Georgia Institute of Technology, and the University of Georgia) receive a higher number of applications from academically qualified students than they have the capacity to admit and enroll. Consequently, some highly qualified applicants with strong test scores and GPAs may not be extended an offer of admission. These highly competitive universities utilize a holistic review process which includes the consideration of additional factors such as recommendations, essays, community involvement, and interviews. Those interested in applying to a selective university should visit the university's website and/or speak with an admissions representative to learn more.

<sup>9</sup> Effective fall 2018, admission to Kennesaw State University will be a selective process. Consequently, some applicants meeting minimum test scores and GPA requirements may not be extended an offer of admission. Those interested in applying to KSU for fall 2018 or later should speak with a KSU admissions representative to learn more.

<sup>10</sup> Due to high demand, admission to pursue a bachelor's degree at the University of North Georgia is a selective process. Some applicants meeting minimum test score and GPA requirements may not be extended an offer of admission. Those interested in applying to UNG to pursue a bachelor's degree should speak with a UNG admissions representative to learn more.

Please note that admission requirements are subject to change. Meeting the minimum requirements provided in this document does not guarantee admission to a USG college or university. Eligibility for admission is determined by the colleges and universities after a complete review. Students are encouraged to contact the Admissions office or to visit the website for their college or university of interest to learn more about their requirements. The contact information for the USG Admission offices can be accessed from [www.usg.edu/institutions](http://www.usg.edu/institutions).

Questions regarding admission to a specific USG college or university should be directed to that institution. General questions regarding this document may be directed to the USG's Office of Student Affairs by emailing [student-affairs@usg.edu](mailto:student-affairs@usg.edu) or calling 404-962-3110.
